He succeeds Don Casey, who has been terminated as CEO and will cease to serve as a member of the Company's Board, effective immediately. Select Preliminary Financial Results for the First Quarter of 2022

Dentsply Sirona today also provided an update on its anticipated financial results for the first quarter ending March 31, 2022.

On a preliminary basis, the Company expects that net sales will be approximately \$965 million (representing an organic sales decline of approximately 1.4% versus prior year). Additionally, GAAP diluted earnings per share will be in the range of \$0.26 - \$0.30 and adjusted earnings per share will be in the range of \$0.48 - \$0.52. Relative to last year, these results reflect weaker sales performance in the U.S., global supply chain challenges, and foreign exchange headwinds.

The amounts set forth above are preliminary estimates. The Company is in the process of finalizing its results of operations for the first quarter ended March 31, 2022 and therefore final results are not yet available. These preliminary estimates are based solely upon information available to management as of the date of this press release. The Company's actual results may differ from these estimates due to the completion of its quarter-end closing procedures, final adjustments and developments that may arise or information that may become available between now and the time the Company's financial results for the first quarter ended March 31, 2022 are finalized. The Company's unaudited consolidated financial statements for the first quarter ended March 31, 2022 should be consulted once they become available.

The Company is not able to reconcile projected adjusted earnings per share (non-GAAP) to first quarter 2022 projected earnings per share (GAAP) without unreasonable efforts because it is not possible to predict with a reasonable degree of certainty the actual impact of the tax rate and related matters for the quarter ended March 31, 2022.
